

ENVIRONMENTAL POLICY

KR Surveys Pty Ltd is committed to providing a safe working environment and promoting and maintaining the highest standards of Occupational Health and Safety (OHS) Management within all KR Surveys activities in accordance with best local practice. Incident prevention is addressed as a core business value within the total company environment.

The OHS Management System has been designed to address and comply with the Management System Standards for Health and Safety, and to function in conjunction with the KR Surveys Quality and associated documents, some of which cover the requirements for the OHS system operational practiced and resultant compliance.

The KR Surveys HSE Management System sets requirements for the methodical integration of HSE issues into KR Surveys operations. It also serves to ensure that all operations meet KR Surveys legal and ethical obligations, responsibilities and commitments.

It ensures..

- Clear assignment of responsibilities
- Efficient and cost-effective planning and operations
- Effective management of OHS risks.
- Compliance with company policy and legislation
- Continual improvement shall be the motivating force that ensures KR Surveys demonstrates due diligence with regards to the management of OHS matters.
